

# Wee Piggies & Paws®

We all know that babies grow up in the blink of an eye. At Wee Piggies & Paws, Nadine Howard aims to immortalize this cherished and all-too-fleeting stage of life with unique handmade mementos: detailed LifeCasts of babies' hands and feet. It's affordable, and the most personal gift you could find for a loved one.

Customers have several products to choose from, including the popular shadow box — a deep frame with openings for little hands and feet and an accompanying photograph — hanging ornaments and LifeCast statues mounted on granite.

Though hands and feet are the most popular choices, Wee Piggies & Paws can create casts of many other things, including baby bellybuttons and bums, lips — as a kiss for Valentine's Day — and even pet's paws.

For more information on these precious and personal keepsakes, contact Nadine Howard at (306) 352-7297.
